

MAHADEVAN S

Data Analyst

Bengaluru, India | +91-7708820919 | mahadevan2134@gmail.com | linkedin.com/in/mahadevans1

Professional Summary

Detail-oriented Data Analyst skilled in Python, SQL, Power BI, Excel, and Statistics with expertise in data cleaning, exploratory data analysis (EDA), data visualization, dashboard development, KPI reporting, and business intelligence. Proficient in Power Query, DAX, ETL, and data modeling to transform raw data into actionable business insights and support data-driven decision-making.

Technical Skills

- **Programming & Database:** Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (MySQL)
- **Data Analytics:** Data Cleaning, ETL, Data Preprocessing, Data Validation, Data Modeling, Exploratory Data Analysis (EDA)
- **Machine Learning:** Scikit-learn, Classification, Regression, Feature Engineering, Model Training, Model Evaluation
- **Visualization:** Power BI, Microsoft Excel, Matplotlib
- **Business Intelligence:** KPI Reporting, Dashboard Development, Business Reporting, Power Query, DAX
- **Statistics:** Descriptive Statistics, Inferential Statistics, Probability, Hypothesis Testing, Correlation, Regression, A/B Testing

Internship Experience

Data Analyst Intern — Besant Technologies, Chennai

Jan 2026 – May 2026

- Collected, cleaned, and structured large datasets from multiple sources using Python (Pandas) and SQL.
- Performed exploratory data analysis (EDA) to identify trends, anomalies, and user behavior patterns.
- Built and maintained interactive dashboards in Power BI and Excel for KPI tracking and reporting.
- Wrote SQL queries to extract insights for business and product decision-making.
- Collaborated with teams to improve data quality, consistency, and reporting reliability.
- Supported documentation of datasets, data flows, and analysis results for stakeholders.

Projects

AI Customer Churn Prediction & Analysis — Python, Pandas, SQL, Machine Learning

- Cleaned and preprocessed a customer churn dataset containing 2,000 records and 32 features using Python and Pandas.
- Performed exploratory data analysis (EDA) to identify churn patterns across contract type, tenure, monthly charges, and customer complaints.
- Analyzed customer behavior and identified key factors associated with customer churn.
- Built and evaluated machine learning classification models to predict customers at risk of churn.
- Evaluated model performance using accuracy, precision, recall, and other classification metrics.
- Generated actionable insights to support customer retention and data-driven business decisions.

Customer Behavior Analysis Dashboard — Python, SQL, Power BI

- Analyzed customer transaction data and performed data cleaning using Python and SQL.
- Built Power BI dashboards to monitor sales, retention, and customer engagement KPIs.
- Generated actionable insights for business decision-making.
- Performed exploratory data analysis (EDA) to identify customer behavior patterns and business trends.

Education

Bachelor of Engineering (Electronics and Communication Engineering)

St. Joseph's College of Engineering, Chennai
CGPA: 8.4/10.0

2022 – 2026

Certification

Data Analytics Certification — Beasant Technologies, Chennai

Jan 2026 – May 2026

- Training in Python, SQL, Power BI, Excel, Data Analysis, Data Visualization, and Dashboard Development.
- Hands-on exposure to real-world datasets, KPI reporting, and dashboard creation.
